

Satyam Arora

AI Full Stack Engineer | React & TypeScript | LLM Integration | Azure Cloud

arorasatyam1112@gmail.com • +358 458568683 • Helsinki region • [satyamarora.dev](#) • [LinkedIn](#) • [GitHub](#) • [Medium](#)

PROFESSIONAL SUMMARY

AI-focused Full Stack Engineer with 3+ years of experience building production software, currently based in Finland. Core expertise in React, TypeScript, and Node.js, with hands-on LLM integration experience backed by two official Anthropic certifications in Claude Code and Agent Skills. Strong domain knowledge in Finnish fintech and accounting software from 2+ years at Talenom Oy. Eligible for the työllistymisaseteli employment subsidy, covering 50% of salary costs for the first 6 months.

SKILLS

AI & LLM: Claude API, Claude Code, Agent Skills, MCP Servers, OpenAI GPT-4, Prompt Engineering

Frontend: React 18, TypeScript, Vite, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Prisma ORM

Databases: PostgreSQL, Azure SQL

Cloud & DevOps: Microsoft Azure (App Service, Azure SQL), Azure DevOps, Jenkins CI/CD, Docker

Security: JWT Authentication, RBAC, bcrypt, GDPR Awareness

CERTIFICATIONS

Claude Code in Action Anthropic • March 2026

Practical course on building with Claude: AI-assisted development, prompt engineering, and agent-based workflows applied to real software tasks. [Verify](#) →

Agent Skills in Claude Anthropic • March 2026

Core concepts of AI agents: task decomposition, tool use, and orchestrating LLM-powered workflows in modern applications. [Verify](#) →

PROFESSIONAL EXPERIENCE

Talenom Oy Nov 2022 – Feb 2025 | Hameenlinna, Finland

Junior Software Engineer

- Contributed to customer portal serving 10,000+ clients built with React and TypeScript.
- Designed and deployed cloud-native applications on Microsoft Azure (App Service, Azure SQL).
- Built and maintained CI/CD pipelines using Jenkins and Azure DevOps.
- Containerised applications using Docker, improving deployment consistency.
- Developed KYC automation tool improving onboarding efficiency by 30%.

Software Engineer Intern

Jul 2022 – Oct 2022

Cyreen GmbH Jan 2020 – Jun 2022 | Wiesbaden, Germany (Remote)

Junior Data Scientist / Web Developer

- Built scalable Python web crawlers across 100+ supermarket platforms, improving pricing insights by 25%.
- Developed SQL KPI queries and integrated external datasets for business analytics (UEFA, Eurovision).
- Worked with PowerBI, Tableau, Azure, and PostgreSQL.

Career Development Break Feb 2025 – Present

- Completed two official Anthropic certifications: Claude Code in Action and Agent Skills.
- Built and shipped multiple AI projects including a Junction Hackathon entry (Wolt Challenge).
- Volunteered at Slush 2025, expanding network in the Finnish startup ecosystem.
- Published technical articles on AI development topics on Medium.

SELECTED AI PROJECTS

AI-Powered Calorie Tracker — Junction Hackathon (Wolt Challenge) — Full-stack AI app providing nutritional insights for ordered meals, built during hackathon sprint. [GitHub](#)

Finnish AI Healthcare Assistant — AI assistant for navigating Finnish healthcare information. [GitHub](#) • [Live](#)

AI Research Bot — React-based AI research assistant with live search integration. [GitHub](#) • [Live](#)

EDUCATION

Hame University of Applied Sciences (HAMK) 2019 – 2022 | Hameenlinna

Bachelor of Engineering, Computer Applications • GPA 4.6 / 5

Thesis: *DIY Accounting Automation for SMEs at Talenom Oy*
